## CHANGE OF ACCOUNTING STANDARDS - OVERVIEW

This report shows Manitoba's insurance business for the year ending December 31, 2024.

Beginning in 2023, Canadian insurance companies began financial reporting using the new International Financial Reporting Standard 17 ("IFRS 17"). IFRS 17 introduces significant changes in how insurers report their financial results. Under the IFRS 4 Property and Casualty ("P&C") and Life returns, insurers reported written premiums and incurred losses broken down by province. This data was used to monitor the financial standing of insurers by comparing net losses to premiums ("Loss Ratio"). However, with the adoption of IFRS 17, the Superintendent has shifted focus to the Gross Insurance Service Ratio (GISR), which provides a more comprehensive view by accounting for a wider range of insurance service expenses (e.g. claims, acquisition, and underwriting expenses) relative to insurance revenue. With the 2024 reporting period, all insurance companies licensed in Manitoba have transitioned to IFRS 17.

While the GISR offers more insight into operational performance than does the Loss Ratio reported in previous Superintendent Annual Reports, it is important to note that the GISR still does not present a full picture of insurers' operational profitability in Manitoba, as it excludes key financial factors which are not reported at the provincial level. For example, premium investment income, reinsurance premiums, reinsurance proceeds, and certain operational costs are not broken down at the provincial level and therefore are not factored into the GISR.

### Key metrics changes from IFRS 4 to IFRS 17

The transition from IFRS 4 to IFRS 17 introduces significant changes to how insurance companies report key financial metrics, with a focus on increased transparency and alignment of revenue and expenses with the actual delivery of insurance services.

One important change is the replacement of Gross Written Premium (GWP) with Insurance Revenue. GWP is no longer included in the profit and loss statement; instead, Insurance Revenue, which is akin to Gross Earned Premium, is recognized over time as services are delivered. This approach provides a clearer representation of revenue tied to the performance of insurance contracts.

Another important change with IFRS 17 is the more detailed presentation of expenses related to insurance contracts, including claims expenses, acquisition costs (such as broker commissions), and administrative expenses related to the servicing of insurance contracts. These expenses are now more closely aligned with the servicing of insurance contracts. They are divided into two categories: Insurance Service Expense (ISE) and Insurance Finance Expense (IFE). ISE covers claims costs, acquisition costs, and other direct costs of providing insurance services. IFE, on the other hand, captures the financial costs related to the time value of money and interest on insurance liabilities. This separation distinguishes core insurance service expenses from financial expense elements.

### Gross Insurance Service Ratio (under IFRS 17) versus Loss Ratio (under IFRS 4)

Different metrics are available with IFRS 17 compared to IFRS 4. Although Insurance Revenue is roughly equivalent to Gross Written Premiums, the other metrics are not comparable. A key metric introduced under IFRS 17 is the Gross Insurance Service Ratio (GISR), which measures the profitability of insurance operations before considering reinsurance, general expenses, and finance costs. Unlike the Loss Ratio reported in previous Annual Reports, which included only claims paid, loss

reserves and adjusting expenses, the GISR includes all insurance service-related expenses, such as claims, acquisition costs, and operating expenses related to servicing insurance contracts. While the Loss Ratio provided a limited view by focusing mainly on claims costs relative to written premiums, the GISR captures a wider range of insurance-related costs, making it a more comprehensive measure of operational efficiency and profitability.

Commencing with 2023 Life insurers did not report a provincial breakdown for Life and Accident & Sickness classes under IFRS 17.

The Superintendent maintains a [list](#) of insurance companies, reciprocal insurance exchanges and fraternal societies licensed to operate in Manitoba.

As part of a risk-based approach to the supervision of the insurance industry in Manitoba, the Superintendent investigates consumer complaints, allegations of insurer misconduct, including unfair acts or practices taken against consumers, and occurrences of non-compliance with the Act and its regulations.
